

**WHAT HAVE YOU DONE TODAY**

**TO HELP SAVE YOUR COUNTRY FROM THEM?**

***THIS IS THE ENEMY***

As you examine the following propaganda posters document your observations by answering the following questions in your journal:

What images are presented in the poster? What do you see? Write down details using the elements of propaganda discussed (exaggeration, symbols, distortion...)

What techniques are employed and to what effect?

What is the message of this poster? Think about how if this poster was presented to the public, how might it shape people's perception of the Japanese or Japanese Americans?

After analyzing your observations for each poster, document your findings and conclusions about how propaganda was used during World War II to influence public perception of the Japanese and what the effects of such representation would be.
